SINGAPORE DESIGN WEEK WORKSHOP: DESIGN FOR CARE IN A POST-PANDEMIC WORLD

19 - 23 SEPT 2022

The “Design for Care in a Post-Pandemic World: International Innovation Bootcamp” was held at CHI over three exciting days in September.

The challenge centered around Polypharmacy & Poor Medication Management in the Community. To capture pain points and problem statements, on-site observations were conducted at GP clinics and Pharmacies, while Patients, Pharmacists and GPs were interviewed. The participants then explored solutions during the design sprint, received feedback, and finally a presentation of their solutions.

Some of the solutions pitched include infographic-styled patient medication summary sheet, a web-based platform to improve trust between patient and GP, a one-stop “CareBear Concierge” for pharmacy needs, and a holistic and comprehensive support system for patients as they continue their recovery in the community.

The bootcamp was held as part of Singapore Design Week, and in collaboration with Queensland University of Technology, DesignSingapore Council’s School of X, CHI, and Tan Tock Seng Hospital Pharmacy. [Click here](#) for more.

CHI WELCOMES KINGDOM OF SAUDI ARABIA (KSA) BIOTECHNOLOGY DELEGATION

15 SEPT 2022

In this co-learning visit, CHI was honoured to host the KSA'S biotechnology delegation where they were keen to learn about our best practices in innovation and the development of BioTech clusters and HealthTech ecosystems.

The delegation learnt about CHI's vision to translate innovation into practice, TTSH's Operations Command Centre and the "Hospital without Walls" Digitalisation Strategy. With the Kingdom embarking on their Healthcare Sector Transformation Plan 2030, we look forward to more learnings and exchanges with them! [Click here](#) for more.

CHI CO-LEARNS WITH MINISTRY OF HEALTH AND WELFARE, Republic of KOREA (ROK)

15 SEPT 2022

ROK's Ministry of Health and Welfare with Prof Philip Choo, Group CEO of NHG, Prof Eugene Fidelis Soh, CEO of TTSH and Central Health, and A/Prof Tan Cher Heng, Executive Director, CHI

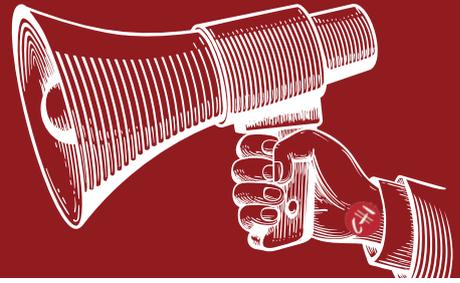

CHI was pleased to host delegates from the Republic of Korea (ROK), led by the Director-General, Bureau of Public Health Policy, Ministry of Health and Welfare, for an afternoon of co-learning!

The delegation was in Singapore to explore collaborative opportunities and strengthen ties between our countries. They visited NCID to understand its role during peacetime and outbreak, and its building designs. The delegation also had the opportunity to hear about CHI's approach to systems level innovation, how 3P Lean Design was applied in plans for NCID. They also experienced key facilities such as TTSH's Operations Command Centre, and the CHI Reimagination Plaza which showcased initiatives to illustrate "Hospital without Walls" Digitalisation Strategy.
